ASOMAFRUT, FOR 45 YEARS DEFENDING THE INTERESTS OF MADRID WHOLESALE FRUIT COMPANIES

The Madrid Fruit and Vegetable Wholesale Companies Association, ASOMAFRUT, is made up of a hundred fruit and vegetable wholesale companies located in the Madrid Central Market.

We were born with the challenge of gathering together all the fruit and vegetable wholesalers in Mercamadrid, which give an essential service to society, ensuring the daily supply of the cities with all kinds of horticultural varieties and assuring food safety.

Together, we are more efficient and have achieved the transformation of the sector, driving improvements which assure our competitiveness and boost the activity between produces and customers.

ASOMAFRUT members generate a turnover of 1.400 € millions and 2.600 direct jobs. They trade between 5 and 6 millions of fruits and vegetables daily.

In ASOMAFRUT we work to represent, manage and defend the economic, social, labor and professional interests of our members; place value on the wholesaler's role in the food chain and raise awareness among other links of such chain, the legislators and the society; increase the visibility of Madrid fruit and vegetable wholesales companies and their products and we all together, achieve a sustainable, competitive and promising market.
